Furthermore, proper names were spelled phonetically.</p> <p>THE VIDEOGRAPHER: Okay.</p>	<p>Page 3</p> <p>1 was going to go down, but, of course, that didn't 2 happen. 3 The DNV said that they -- they work on 4 trust, trust is the most important thing for them and, 5 of course, that's true. Trust is really, really 6 important. Without trust in business and in life, you 7 really have nothing. But, again, like -- that failed. 8 Greed came into it and, of course, the plastic wasn't 9 handled correctly. The plastic was collected, was 10 tokenized. Companies all over the world paid for these 11 tokens and we ended up with 2- or 300,000 kilos of this 12 plastic. 13 The companies that took part in this that 14 were duped by ReSea, a lot of companies, Compete 15 Impossible, Information, MessyWeekend, Stoli, Rockay, 16 Eva Solo, Worthmore, FlooringSuperstore.com, Urban Alley 17 Brewery, Melbourne, Simple Goods, Nordic Oil, Royal 18 Danish Yacht Club, Yellow Lids, Readers Copen -- 19 Copenhagen, Kingfish, just to mention a few. 20 One of the companies I feel sorry for -- 21 again, another one of these companies that got duped 22 by -- by ReSea and by DNV was the Hidden Sea, a wine 23 company there in Australia. It's a great company and, 24 of course, they bought into this themselves. They got 25 caught by the DNV and they got caught by ReSea.</p>
<p>Page 2</p> <p>1 MR. KELLY: A couple of months back, we 2 called out a company -- an environmental company called 3 ReSea. ReSea -- the ReSea project is a Danish 4 environmental company. 5 The ReSea project was set -- was set up to 6 retrieve plastic from our ocean and to help make our 7 ocean and -- and our eco system a lot cleaner and a lot 8 healthier by doing so. Behind me here is many, many 9 bags belonging to ReSea, bags that they collected, bags 10 that they collected and they put on the blockchain -- a 11 blockchain company called VeChain. 12 VeChain are a massive international 13 blockchain. And the auditing for this entire process 14 was done by a massive third-party auditing company 15 called the DNV. The DNV promised to oversee these 16 collections of plastic and to make sure that this 17 plastic was going to be handled correctly and, of 18 course, that it wasn't going to be a problem plastic 19 after collections. 20 ReSea turned to the business world and 21 companies from all over the world, a lot of companies in 22 Australia and Europe and so on and so forth. I'll read 23 out a list of those companies here shortly. Those 24 companies bought into the whole spiel coming from the 25 DNV and coming from ReSea regarding how this whole thing</p>	<p>Page 4</p> <p>1 So they -- they promised like, you know, 2 their -- on their -- on their marketing, for every 3 bottle of wine or whatever they sell -- or case of wine 4 that a hundred bottles will be pulled out of the ocean. 5 Again, that was completely misleading also, not -- not 6 by them but by the people that said they actually can do 7 that. 8 Less than 1 percent of the plastic you'll 9 see in the ocean, a lot less than that is actually 10 plastic bottles. Well, for the most part, it's 11 single-use plastic, plastic bags, so on and so forth. 12 All these companies got caught by ReSea and the DNV and 13 it's -- it's a pity and one -- the damage it does to the 14 environmental space, of course, is broken and, again, 15 the reputation of -- of all these companies. 16 Also, I guess, you know, it's time for 17 companies to -- to look -- I guess reflect and look 18 carefully at where they're getting their offsets if -- 19 if that's the thing that they're using in their -- in 20 their business model. That's definitely important. 21 Again, as you can see behind me, it's a 22 broken problem. One of the biggest problems we saw 23 like, you know, with plastic waste that was -- that came 24 from ReSea after collections was the amount of oil that 25 was on the plastics, bags of plastic that they -- that</p>

<p style="text-align: right;">Page 5</p> <p>1 they weighed to increase the kilos of plastic they were 2 actually pulling from the water. 3 It was weighed wet with lots of added oil, 4 heavy oil. A bag of plastic that should weigh five, 5 seven kilos max was weighing anywhere as high as 6 40 kilos. Again, when we spoke with ReSea about this, 7 they said, "Well, you know, there's a lot of plastic in 8 the oil -- or a lot of oil in the harbor at times and, 9 of course, that's going to make its way into the bags," 10 again to find out, you know, it's hilarious for them 11 even to come up with a reply like that. 12 One of the other problems that we saw 13 inside the bags again that pushed me, I guess, like, you 14 know, to push so hard back against the likes of ReSea 15 was the amount of netting that they put into the bags, 16 small pieces of netting that were chopped up and put 17 into each bag. You can see where the netting was cut 18 with a knife. You can also see that, again, the -- a 19 lot of this netting was fairly new. 20 The fishermen in this region, this part of 21 the world are extremely poor. They definitely don't 22 dump netting. To try and paint a picture and say that 23 Indonesian people and Indonesian fishermen are 24 responsible for this is downright disgraceful. The 25 people here in -- especially inside these fishing</p>	<p style="text-align: right;">Page 7</p> <p>1 THE STATE OF TEXAS) 2 COUNTY OF HARRIS) 3 4 I, Diana Ramos, Certified Shorthand 5 Reporter in and for the State of Texas, do hereby 6 certify that the above and foregoing is a correct 7 transcription from the video recording provided to me in 8 the aforementioned matter, taken down by me in machine 9 shorthand and later reduced to typewritten form to the 10 best of my ability. 11 Certified to by me this 26th day of 12 January, 2022. 13 <i>Diana Ramos</i> 14 15 Diana Ramos, CSR 16 CSR No. 3133, Expires 1-31-2023 17 Lexitas 18 Firm Registration No. 95 19 13101 Northwest Freeway, Suite 210 20 Houston, Texas 77040 21 (281) 469-5580 22 23 24 25</p>
